EDUCATION			
YEAR	DEGREE	INSTITUTE	% / CGPA
2025-2027	M.Sc. in Analytics	Tata Institute of Social Sciences, Mumbai	Pursuing
2019-2022	Bachelor of Science in Hotel & Hospitality Administration	AIHM, Chandigarh	74%
2018	Intermediate (12 th)	Little Scholars, Kashipur	74%
2016	High School (10 th)	Little Scholars, Kashipur	8.2
WORK EXPERIENCE		Duration: 2 years 02 months	
OrgaKnow	Data Science Intern – AI Solutions		Dec 2025-Present
• Machine Learning & Data Processing: Built HR attrition prediction and employee performance analysis models using Python (Pandas, NumPy) and structured CSV-based pipelines. • Exploratory Data Analysis & Visualization: Performed EDA and developed web-based Streamlit dashboards with role-based access (CHRO, HRBP, Manager). • Model Logic & Risk Scoring: Implemented classification-style risk scoring, KPI-weighted features, and prescriptive analytics using historical workforce data.			
BJT GLOBAL	HR Generalist (Remote)		Dec 2023 – Aug 2024
• HR Policy Implementation: Refined and enforced HR policies in compliance with labor laws and company goals, fostering a cohesive and compliant work environment. • Performance Management: Spearheaded the performance appraisal process, providing constructive feedback and identifying training needs to boost employee growth and organizational effectiveness. • HR Data Analysis: Maintained and analyzed HR data to generate insights, enabling data-driven decision-making to address workforce trends and improve workforce efficiency, while designing interactive dashboards using Excel and Power BI for clear visualization of key HR metrics.			
BARBEQUE NATION	Management Trainee (L&D-HR)		Jun 2022-Oct 2023
• Learning & Development Program Management: Designed and executed training programs, boosting productivity by 25% and reducing turnover by 20%, Coordinated workshops and seminars, improving performance by 30% & customer satisfaction by 15%. • Content Creation & Training Delivery: Created manuals, onboarding materials, and videos for long-term training use, Delivered engaging onboarding sessions and cross-training activities. • Quality Assurance & Compliance: Reviewed and edited training content for accuracy, compliance, and brand alignment, managed end-to-end training operations to ensure timely, high-impact delivery. • Customer Service & Business Knowledge: Addressed customer, client and staff inquiries via phone and email, ensuring timely resolutions, gained in-depth understanding of company policies, protocols, and retail business operations.			
PROJECTS			
Power BI Sales and Operational KPI Dashboard		Developed interactive Power BI dashboards using DAX and data modeling to track sales performance, KPIs, and operational trends for data-driven decisions.	
SQL Revenue and Workforce Data Analysis		Analyzed structured restaurant and employee datasets using joins, aggregations, and subqueries to derive revenue patterns and workforce insights.	
Python Pricing and Workforce Analytics		Built end-to-end Python pipelines using Pandas and NumPy for exploratory data analysis, feature engineering, and classification modeling on pricing and HR datasets.	
Excel Sales Performance Dashboard		Created Excel dashboards using pivot tables and advanced formulas to analyze revenue trends and product-level performance.	
SKILLS			
Data Analytics Tools		Excel, Power BI, Tableau, SQL, Python, Streamlit & Gradio	
Programming & Data Science		Python (Pandas, NumPy), SQL, R (basic)	
Soft Skills		Analytical thinking, Problem Solving, Collaboration, Adaptability	
ML & Statistics		EDA, Feature Engineering, Classification Models, Risk Scoring, Statistical Analysis	
HR Tools		HRSS, LMS, Frontlyn, Betterplace, ZingHR, ZingLearn
